## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. O'Shea on 04/17/06.

The application has been amended as follows:

In the claims:

Claim 12, line 2, delete the phrase "the flow" and insert the phrase "--a flow--".

### ***Allowable Subject Matter***

Claims 1, 8 and 11 – 16 are allowed.

The following is an examiner's statement of reasons for allowance: As to claim 1, the prior art fails to show a method of determining an offset-reduced Hall voltage of a Hall sensor wherein the offset-reduced Hall voltage is determined by a first linear arrangement of taps to determine an angular component of a magnetic field and an additional Hall voltage is determined with a second linear arrangement of taps in an arrangement which is oriented at an angle relative to the first arrangement. These

features taken together with the other limitations of the claim render the claim allowable over prior art.

As to claims 8 – 16, the prior art fails to show an offset-reduced Hall sensor wherein the second and fifth taps are shunted together and a control device to apply a first Hall sensor current through the first tap, and the second tap that is spatially displaced relative to the first tap, and sense a first Hall voltage between the third and fourth taps and the first tap is central with respect to the remaining taps and the third tap is located between the first and second taps and the fourth tap is located between the first and fifth taps. These features taken together with the other limitations of the claim renders the claims allowable over prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Reena Aurora whose telephone number is 571-272-2263. The examiner can normally be reached on Monday - Friday, 7:00 - 3:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, E. Lefkowitz can be reached on 571-272-2180. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
